### EDUCATION

#### University of California, Irvine

*B.A. of Sociology*

#### LearningFuze | Irvine, California

*Accelerated Web Development Program*

### APPLICATIONS DEVELOPED

#### Calculator – Live | GitHub

- Created application that receives two operands and performs mathematical functions.
- Utilized **JavaScript** and **jQuery** for functionality and logic. Calculator is able to decipher order of operations as well as incorrect input.
- Applied **HTML5** to create basic skeleton, **CSS3** to style and animate user interface, and **Flexbox** for mobile responsiveness.

#### Connect4 – Live | GitHub

- Developed fully working game in team of four.
- Managed task delegation utilizing **MeisterTask** swim lanes and **SCRUM** to identify and track solutions.
- Using **JavaScript** and **jQuery**, created dynamic DOM game board.

#### Match Memory – Live | GitHub

- Employed **JavaScript** and **jQuery** to provide game functionality in addition to creating game dynamically using DOM manipulation techniques.
- Utilized **CSS3** and **Flexbox** to apply styling and animation.

### PROFESSIONAL EXPERIENCE

#### Disclosure Specialist | Orion Lending 2015 - 2017

- Prepared loan documents to borrowers and ensured closing costs fees were accurate within 99% accuracy by coordinating with title and escrow officers.

#### Loan Setup Supervisor

- Created daily and monthly reports to document progress of team members.
- Communicated with team members to resolve conflicts and provided thorough feedback over email and in-person to improve team member performance.

# NICK QUAN

## FRONT END DEVELOPER

- Spearheaded government guideline transition and developed training guides to assist team members on proper Encompass software use and document generation.
- Maintained a 24-hour setup turnaround to ensure broker satisfaction.
